Pipistrel Taurus Electro

\$311,700

Description

Be ready for the 2026 soaring season! The Taurus Electro offers complete freedom as a ground-breaking two-seat, side-by-side, self-launching glider. With superb handling, excellent gliding performance, and a spacious, well-ventilated cockpit, the Taurus Electro is ready for you. Thanks to the all-electric 40 kW powertrain, the Taurus Electro can operate from shorter runways and climb faster, representing a leap forward on performance, safety, functionality, and pilot ease.

On board, Taurus Electro features a full networked avionics package, providing fly-by-wire powertrain management with built-in multi-layer protection. Cutting edge hybrid battery management provides better performance and longer battery life, with the ability to monitor battery status and all parameters.

With Taurus Electro, you'll enjoy your independence with the retractable electric engine and double retractable main landing gear – that's right, no tow-plane needed! Paired with Pipistrel's closed trailer for easy loading and transport, the sky is not the limit with Taurus Electro – it's just the beginning.
