Bombardier Learjet 60 XR

Description

True to its thoroughbred form, the Bombardier Learjet 60 XR completely outpaces the competition in speed, time-to-climb and operating altitude without compromising a class-leading low operating cost. With its cutting edge cockpit technologies and stylishly redefined cabin space, the Learjet 60 XR business jet speeds passengers up to 2,451 nautical miles (4,539 km) across continents with ease.

Class-leading low operating cost

Rethought, redesigned interior provides passengers with more space and better cabin functionality

'Next-generation' flight deck and technologies led by the Rockwell Collins Pro Line 21 avionics suite

This serial number 60-410 is a superb 2012 model with low total hours that is professionally operated by Integra Jet, LLC (www.flyintegra.com) under strict FAA Part 135 requirements. The history and records of this aircraft are impeccable. This aircraft is based in Orlando FL and available for a charter test flight.
