Quick info

Listing type: For sale

Description

A great example of a 340A that has been meticulously maintained with attention to every detail. New Ram Six conversions and propellers on both sides supply 335 HP for additional takeoff weight and useful load. This seven seat configuration is perfect for a company wanting to cruise above 20,000 feet in pressurized comfort. The Flight Into Known Icing addition allows for confidence in IFR conditions, and the leather seating and factory air conditioning keep passengers cool on warmer days. The original equipment panel includes an 800 Integrated Flight Control System for smooth transitions from auto pilot controlled straight and level flight to intercepting and flying an ILS to minimums, while the altitude preselect coupled with the IFCS gives you more time for flight management. If you can conceive of owning an engine redundant cabin class pressurized aircraft for under \$320,000, then this 340A is for you.

Cessna 340A
