## Aviat A-1C-180 Husky

\$299,000

## Description

AIR CONDITIONING? IN A HUSKY? YES, YES, YES!!! THE ONLY ONE ON THE PLANET!!! We've been working on a solution to cooling off the cockpit of the Husky in our 100+ degree summers and WE HAVE THE ANSWER! This isn't some ice chest or a simple fan, but an actual Air Conditioning system with a condenser and evaporator that's 100% electric with computer controls and multiple blower speeds! Only 33 lbs. total and since its portable, no 337 needed- easy in, easy out with the baggage compartment still usable! New 100A Hartzell Alternator installed replacing the stock 70A. Easily removable through the baggage door for cool weather flying. Call for details!

NEW 3-BLADE HARTZELL PATHFINDER PROP!!! This was the aircraft lent to Hartzell to certify the new Hartzell Pathfinder prop- a state-of-the-art 3-carbon-fiber blade propeller with the same (or better) performance than the 2-blade Trailblazer, but smoother and only 2 lbs heavier, thanks to a new lightweight hub design. It's smooth as silk and sounds AWESOME at takeoff power!

NDH, IFR certified, always hangared and delivered with a fresh McCreery annual by our "best-in-the-business" Dawg veterinarian. A WAAS Garmin 430, ADS-B, 6 pack with a new Attitude Indicator, Vernier Mixture Control, monster mudder 31's and a Baby Bushwheel on the tail. Complete logs, the most thorough annual you'll find anywhere with all SB's and AD's complied with.

Excellent Paint, Interior and Glass.

We delivery anywhere in the Lower 48 for expenses!

McCreery has over 20 years experience in, selling & servicing the Husky, with hundreds- new & used- sold. Call or Email The Husky Expert about this beautiful aircraft today!

## Add Details
