Beechcraft A36 Bonanza

\$497,000

Description

\$497,000 with Bonanza School

NOTE: N129BM was one of five Bonanzas purchased by the Israeli Air Force from Raytheon New. It was used to transport the Air Force flag officers. It was eventually returned to USA and put back into USA service about January 2020. A careful review of the Logs and documents for this aircraft show that the aircraft had been meticulously and continuously maintained by the Israeli Air Force personnel, on an almost daily schedule. The Logs and associated papers are seamless since the aircraft came from Raytheon as a new aircraft. There have been numerous recent upgrades, such as electronics (Avidyne MFD #550 & #440 w WASS GPS Nav, Comms, Garmin transponder GTX345), new leather interior, and new paint etc. The original serial number E-3588 is the same, however the N number has been changed from N37088 to N129BM.
