Cessna 150D

\$74,500

Description

N4430U may be one of the nicest tailwheel Cessna 150/150 conversions on the market today. This aircraft has been meticulously maintained and cared for by its owner-an extremely experienced IA-who has owned and maintained the aircraft for the past 10 years. Opportunities to purchase a tailwheel 150 of this caliber are rare, and you will be hard-pressed to find a nicer example anywhere.

This aircraft makes for the perfect affordable backcountry airplane-essentially a "mini Skywagon." Equipped with a Power Flow exhaust system and vortex generators, N4430U offers enhanced performance, improved climb, and excellent short-field capability.

Adding to its uniqueness, N4430U was featured on the front cover of the December 2023 issue of Cessna Pilots Magazine, including an impressive 14-page feature article highlighting the aircraft and its story.

If you are looking for a clean, well-maintained, and highly capable tailwheel Cessna 150, this aircraft deserves serious consideration.

Inquire for digital logbooks and additional pictures.
