## Cessna 172 Skyhawk

### Description

UNDER CONTRACT - Thanks Flying Magazine!

This Cessna 172 has been \"in the family\" and hangar kept for the last 20 years. It boasts bold hues of red, white, and blue, paired against that sleek straight-tail Cessna design.

Just 127 hours have been put on the aircraft since the engine was overhauled and reinstalled with a new climb prop in December 2019!

Features include a Horton STOL kit (installed with paint in 1987), Skytech starter, alternator, SLICK magnetos, Steve's oil cooler kit, vacuum pump, Real Gasket kit, F&M oil filter adapter, Rosen sun visors, shoulder harnesses, dual / backup attitude indicator. The aircraft also includes lighted panel cover that is currently not installed.

Avionics include a King KMA20 audio panel, King KX175 nav/com, King KX125 nav/com, King CDI w/GS, uAvionix Tail Beacon ADSB, King KT76A transponder and an Artex 406 ELT.

There are a few minor dings from hail. I've tried to capture that in the images. The headliner needs replacing.

Imaged copies of the logs are available upon verbal request.

### Add Details

**Manufacturer year:** 1956

**Serial number:** 28921

**Registration number:** N6821A

**Total airframe time:** 4347
