Located at KOCF and available for inspection most anytime. Just released from Annual With New certified Carb Rebuild, Fuel Tanks were also taken out and overhauled, fuel selector valve overhauled, Brake lines redone & New Alternator and Regulator

First pic has Nose wheel cover, It comes with all 3 but nose wheel has some damage so not currently on. Wing edge has some dings as well, will attempt to Photograph.

Not much in the way of Avionics, up to you what you want to do with that. Overall a great flying plane with plenty of actual power and climbing ability.
