Description

PacTex Aviation and @cooperthepilot are excited to present our newest aircraft listing — a 1964 Cessna 182G, N2191R. This capable Skylane blends reliable performance with a few unique touches that make it stand out from the crowd.

N2191R features the proven Continental IO-470 engine and McCauley propeller combination, both with mid-time hours and ready for many more years of dependable service. The aircraft was previously configured for skydiving operations, including a right-side jump door and external step, and is currently configured for passengers for your next cross country flight.

With a time since overhaul of 278 hours, this 182 offers a solid foundation for its next owner. It's a versatile performer that maintains the legendary Cessna durability and straightforward operating costs the 182 line is known for. This will make a great cross country platform.

For more information, contact Cooper at Cooper@pactexaviation.com.

This aircraft has gone through the PacTex multi-point audit and inspection prior to being listed.
