## Cessna 182Q Skylane

\$269,000

### Description

Be a part of a very small club of pilots/owners who enjoy the safety and performance benefits of a King Katmai Peterson style STOL aircraft. Rotate at 40-45 Kts and safely turn immediately as the Canard wing works to keep your plane level and safe.

No Carb heat issues as the upgraded GAMi Fuel injection system distributes your fuel evenly to all cylinders unlike standard 182's.

It also allows more safe landing possibilities in emergency situations as you simply stall directly over foliage and more likely walk away.

Easiest plane to fly that I have ever experienced in almost 40 years piloting aircraft.

### Add Details

**Manufacturer year:** 1980

**Serial number:** 18266064

**Registration number:** N759KW

**Total airframe time:** 3118.2

### Airframe:
