It is ALWAYS hangared.

**Paint Year:** 2010

**Listing type:** For sale

### Description

2 time Oshkosh Award Winning "Vegas Viper" - as seen on the cover of AOPA This is without a doubt the finest, most updated and customized ( over 30 STC's) Piper Comanche 250 in existence! Absolutely no expense was spared in the Spinner to Tail makeover.

The refurbish was done meticulously and exacting to create the Vegas Viper with safety, reliability, speed and comfort in mind. An incredible cross country IFR machine: Enjoy 167 kts true airspeed burning 11.5 gal/hr in the most luxurious and comfortable cabin you can possibly imagine.

Since 2005 this aircraft has been methodically updated, every single system (airframe, engine, firewall, avionics etc) has been replaced to create the best single engine airplane in the world! The second award (4 years after winning its first award for "best customized") earned at Airventure was for "best continually maintained".

I have never had to cancel a flight for mechanical reasons, this airplane is thoroughly inspected after every flight by our in-house mechanic. Words and pictures alone cannot accurately describe how magnificent this airplane truly is. Yet, it is not just a "show plane".

This special one-of-a-kind airplane is fast, quiet, smooth with a tremendous range! The records are meticulous since coming out of the factory (On-line and leather-bound log books through PlaneLogix) and there is far more money into the plane than I am asking - it is priced for a quick sale and the most discriminating buyer will not be disappointed!

# Piper PA-24-250 Comanche

\$339,000

## Add Details

**Manufacturer year:** 1964

**Serial number:** 3608

**Registration number:** N8351P

**Total airframe time:** 6247.7

## Additional information

### Airframe:

#### Airframe Description:

Max Takeoff Weight: 2,900 lb

Basic Empty Weight: 2,013.62 lb

Useful Load: 887 lb

Fuel Capacity Volume: 90 gal

Auxiliary Fuel Tank: Yes

Complete Logs: Yes

Airframe Notes: Airframe was completely stripped down in 2010 and every rivet was inspected and replaced as needed.

**Airframe Total time:** 6247.7

**Engine 1 hours:** 913.3 SNEW

### Propulsion:

Engine

Engine Manufacturer: LYCOMING

Engine Model: O-540-A1D5

Engine Serial Number: RL-23058-40E

Engine Horsepower: 250 HP

Engine Time: 913.3

Engine Time Since: SNEW

Engine TBO: 2000

Year Engine Overhauled or Installed as New: 2014

Engine Time Remaining To Overhaul: 1086.7

Engine Notes: Purchased brand new engine from Lycoming factory in 2014. Every option possible including the roller tappets. CHT's always kept below 380 degrees and is monitored via the JPI 9000 primary engine instrumentation. At the same time of the new engine install, I also completely redid the entire firewall forward including adding new heat shield, soundproofing, mirror like polished (and hand coated) stainless steel overlay and a dual exhaust system. Every hose, clamp, cable and fastener was replaced. It's literally a work of art!

Prop

Prop Manufacturer: MCCAULEY

Prop Model: B3D32C412C

## Piper PA-24-250 Comanche

**\$339,000**

Number of Blades: 3

Blade Composition: Aluminum

Prop Notes: Custom painted prop with polished leading edges

Modifications/Conversions

Too many to list but every single modification, including speed mods, built -in TV screens, overhead panel with wood inlays and custom upholstery is all perfectly documented with STC's
