Pipistrel Alpha Trainer

Description

Q2 2026 Delivery - The secret is out about the Alpha Trainer's unmatched performance and economics! Factory NEW with Garmin Pro2 avionics suite and enhanced Pipistrel warranty, this is the Technically Advanced Aircraft you've been looking for. Contact Elemental Aviation NOW to secure one of our incoming 2026 units before they are all gone!

The Smart Training Choice -

The Alpha Trainer combines performance and efficiency making it the perfect flight training and time-building aircraft. Through modern aerodynamic design and high-tech manufacturing, the Alpha Trainer provides superb performance and flight characteristics with low operating costs thanks to its fuel-efficiencies. Built by design, the Alpha Trainer comes equipped with all the essential features expected for flight training, including a strong durable undercarriage, and gentle flight characteristics. Suitable for entry level flight training and experienced aviators, the Alpha Trainer offers a quiet, comfortable cabin with easy access and is a comfortable learning environment for students. Operated throughout the world in some of the harshest conditions, the Alpha Trainer is a trusted and proven trainer, backed by Pipistrel's service and support network.

Low cost to purchase and operate, LSA certified and fully approved for Day/Night VFR operations, and IFR training and check rides. Equipped with a Ballistic parachute rescue system as standard equipment. The Alpha Trainer is the perfect compromise between performance and price for individuals and flight schools across the USA.
