## Description

This is a very new CH801 aircraft with only 119 hours. The Lycoming Thunderbolt YO-360-A4M 180hp engine is still almost brand new. The plane was first made by hobbyists in the United States, later collected by Chinese players, and now the owner sells the plane due to illness. But the plane is not registered in the United States, nor in China. There are also no records of flights and maintenance. But the plane is very sturdy and clean. The wings can be removed at any time and sent by sea to all over of the world.
